# Selecting the Right CDP

# Most Satisfied Martech Buyers Select on Features, Least Satisfied Select on Cost

# Buyers Paying More Attention to Cost, Less to Features

# Understand the Various Types of CDPs

## Gartner

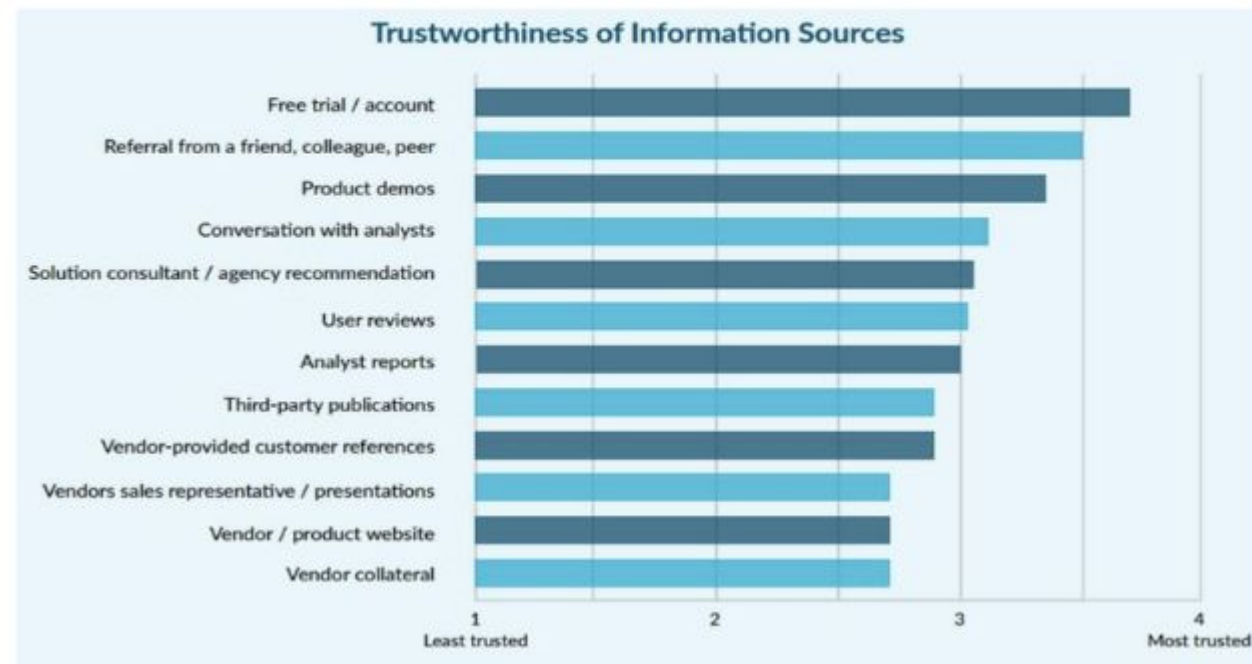

“CDPs optimize the timing and targeting of messages, offers and customer engagement activities, and enable the analysis of individual-level customer behavior over time.”

# Importance of Self Serve

## Product Experience Is the Most Trusted Source of Information in the Buying Process

For 5 years, the top 5 most commonly used information sources were:

2021

This year, vendor reps dropped out in favor of communities/forums, and free trial/account took the #2 spot in place of vendor/product website

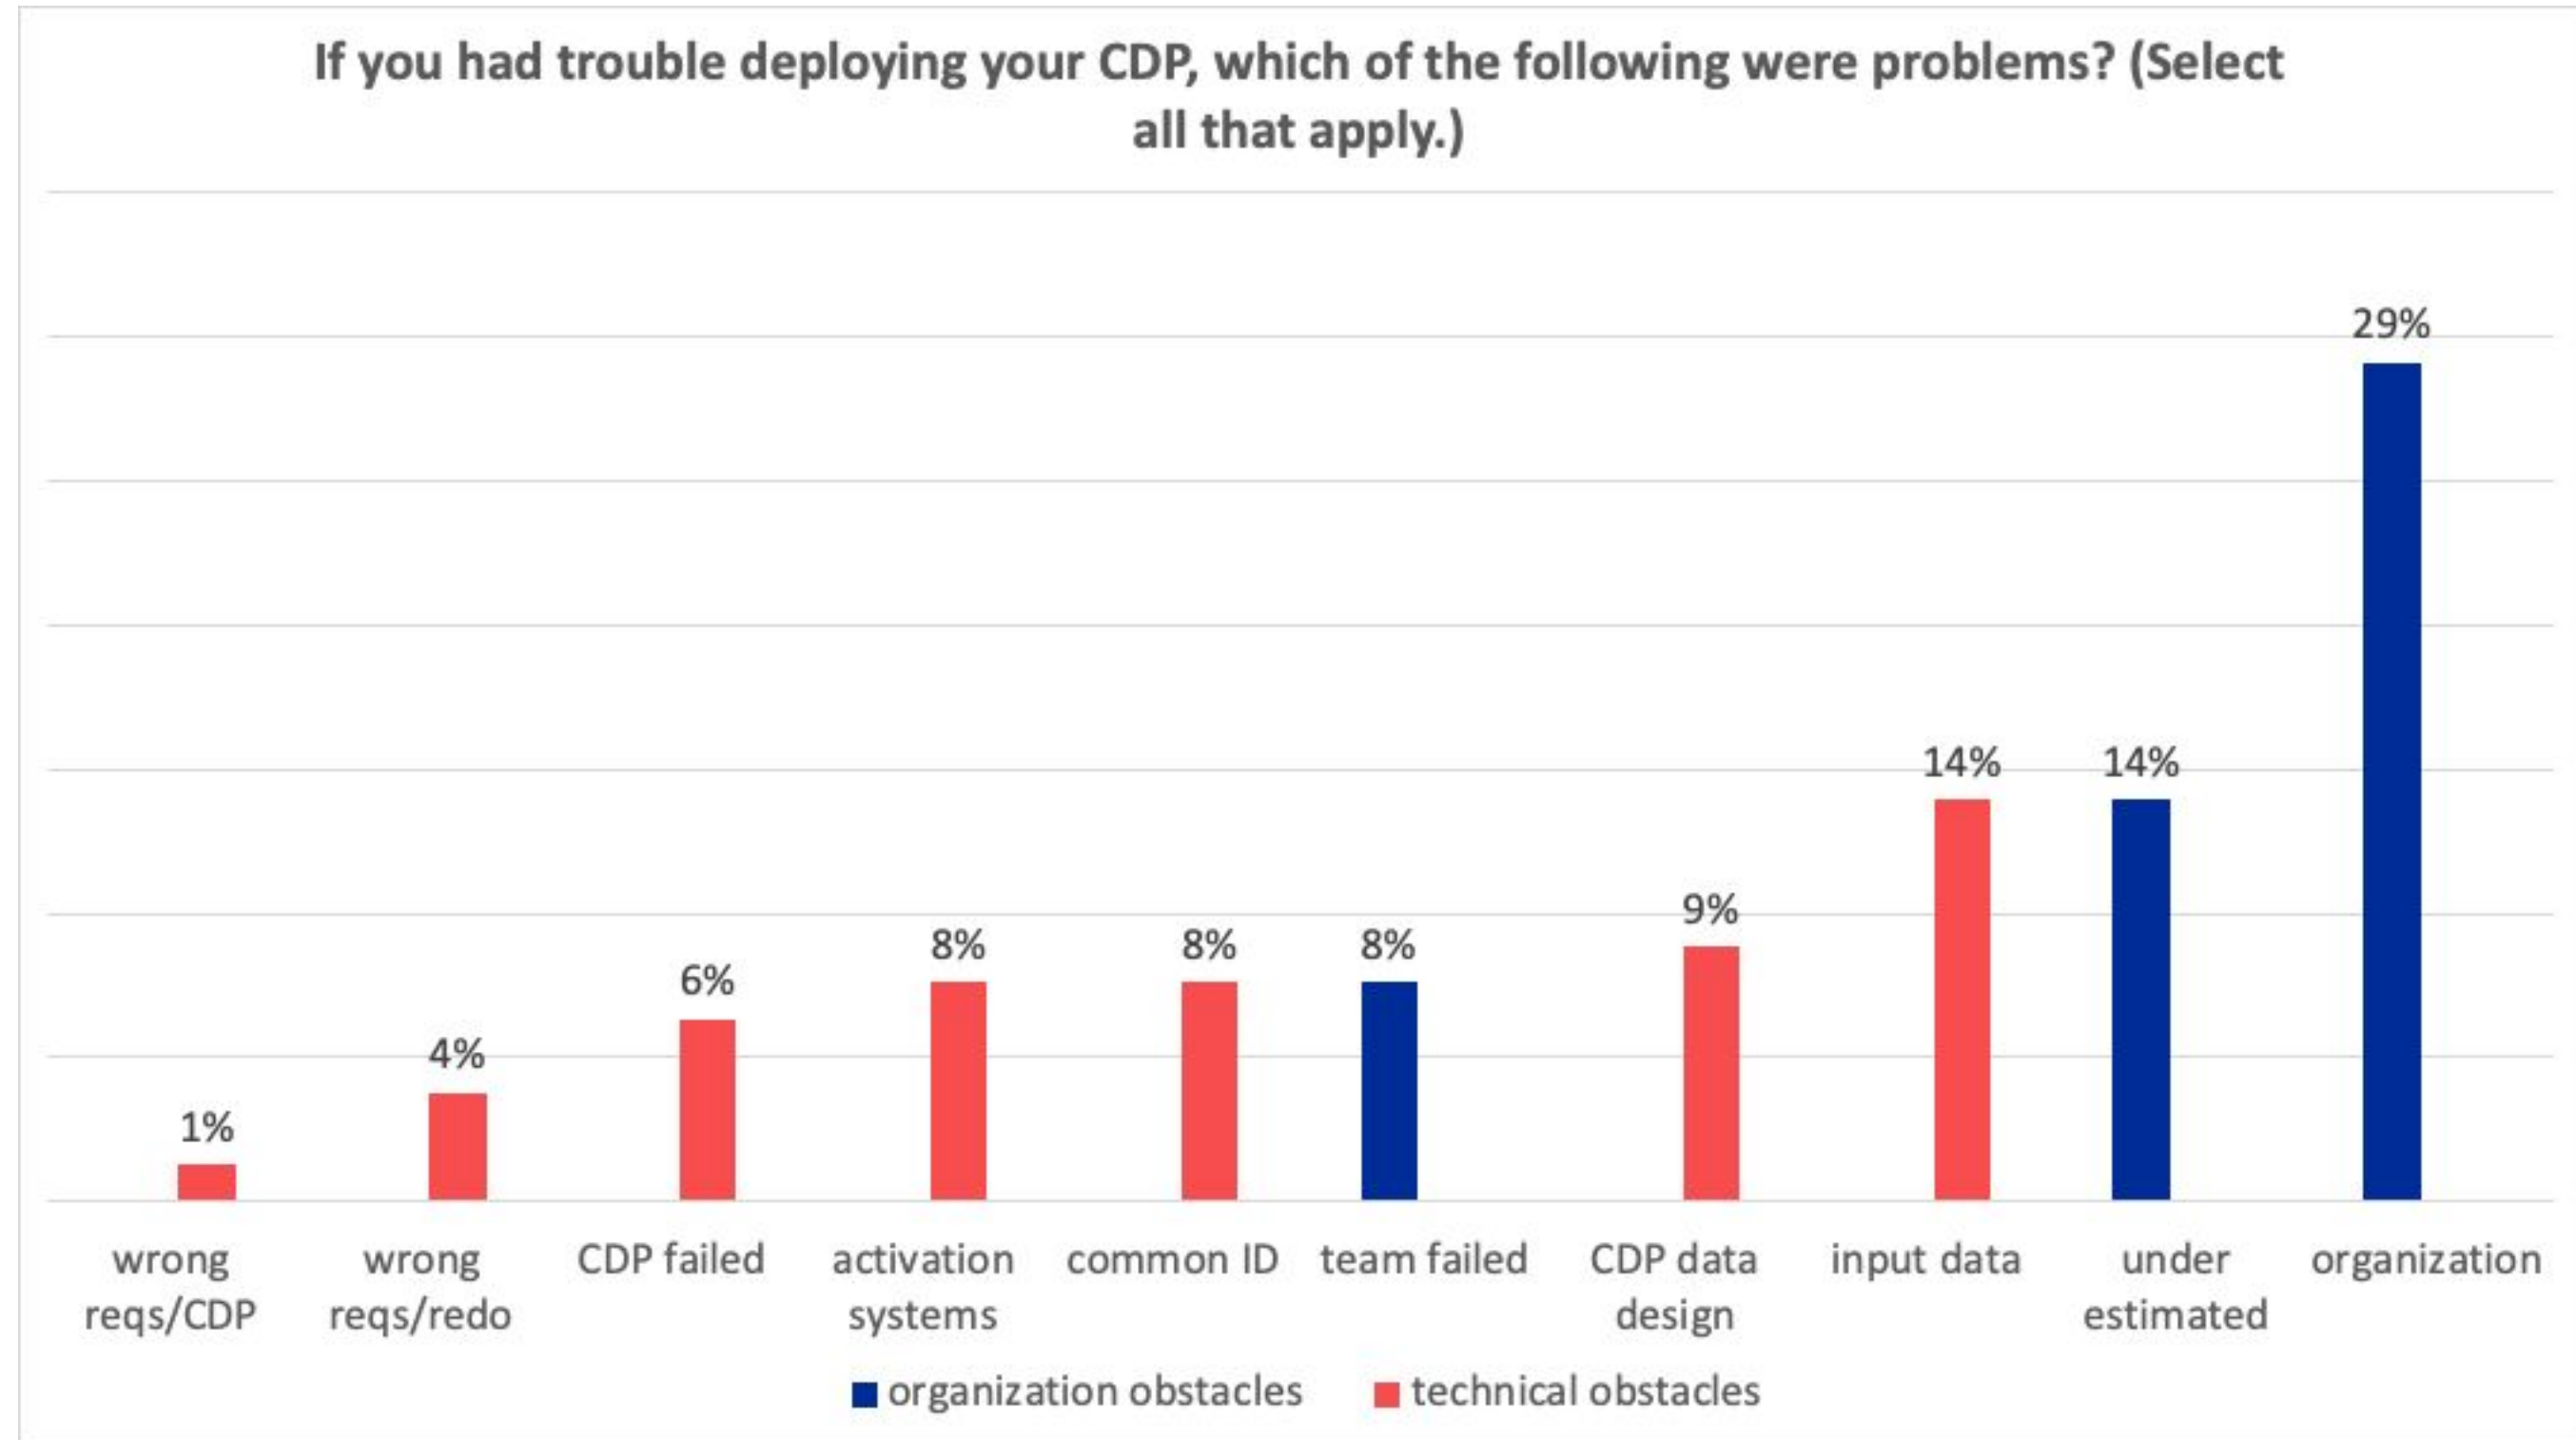

2022

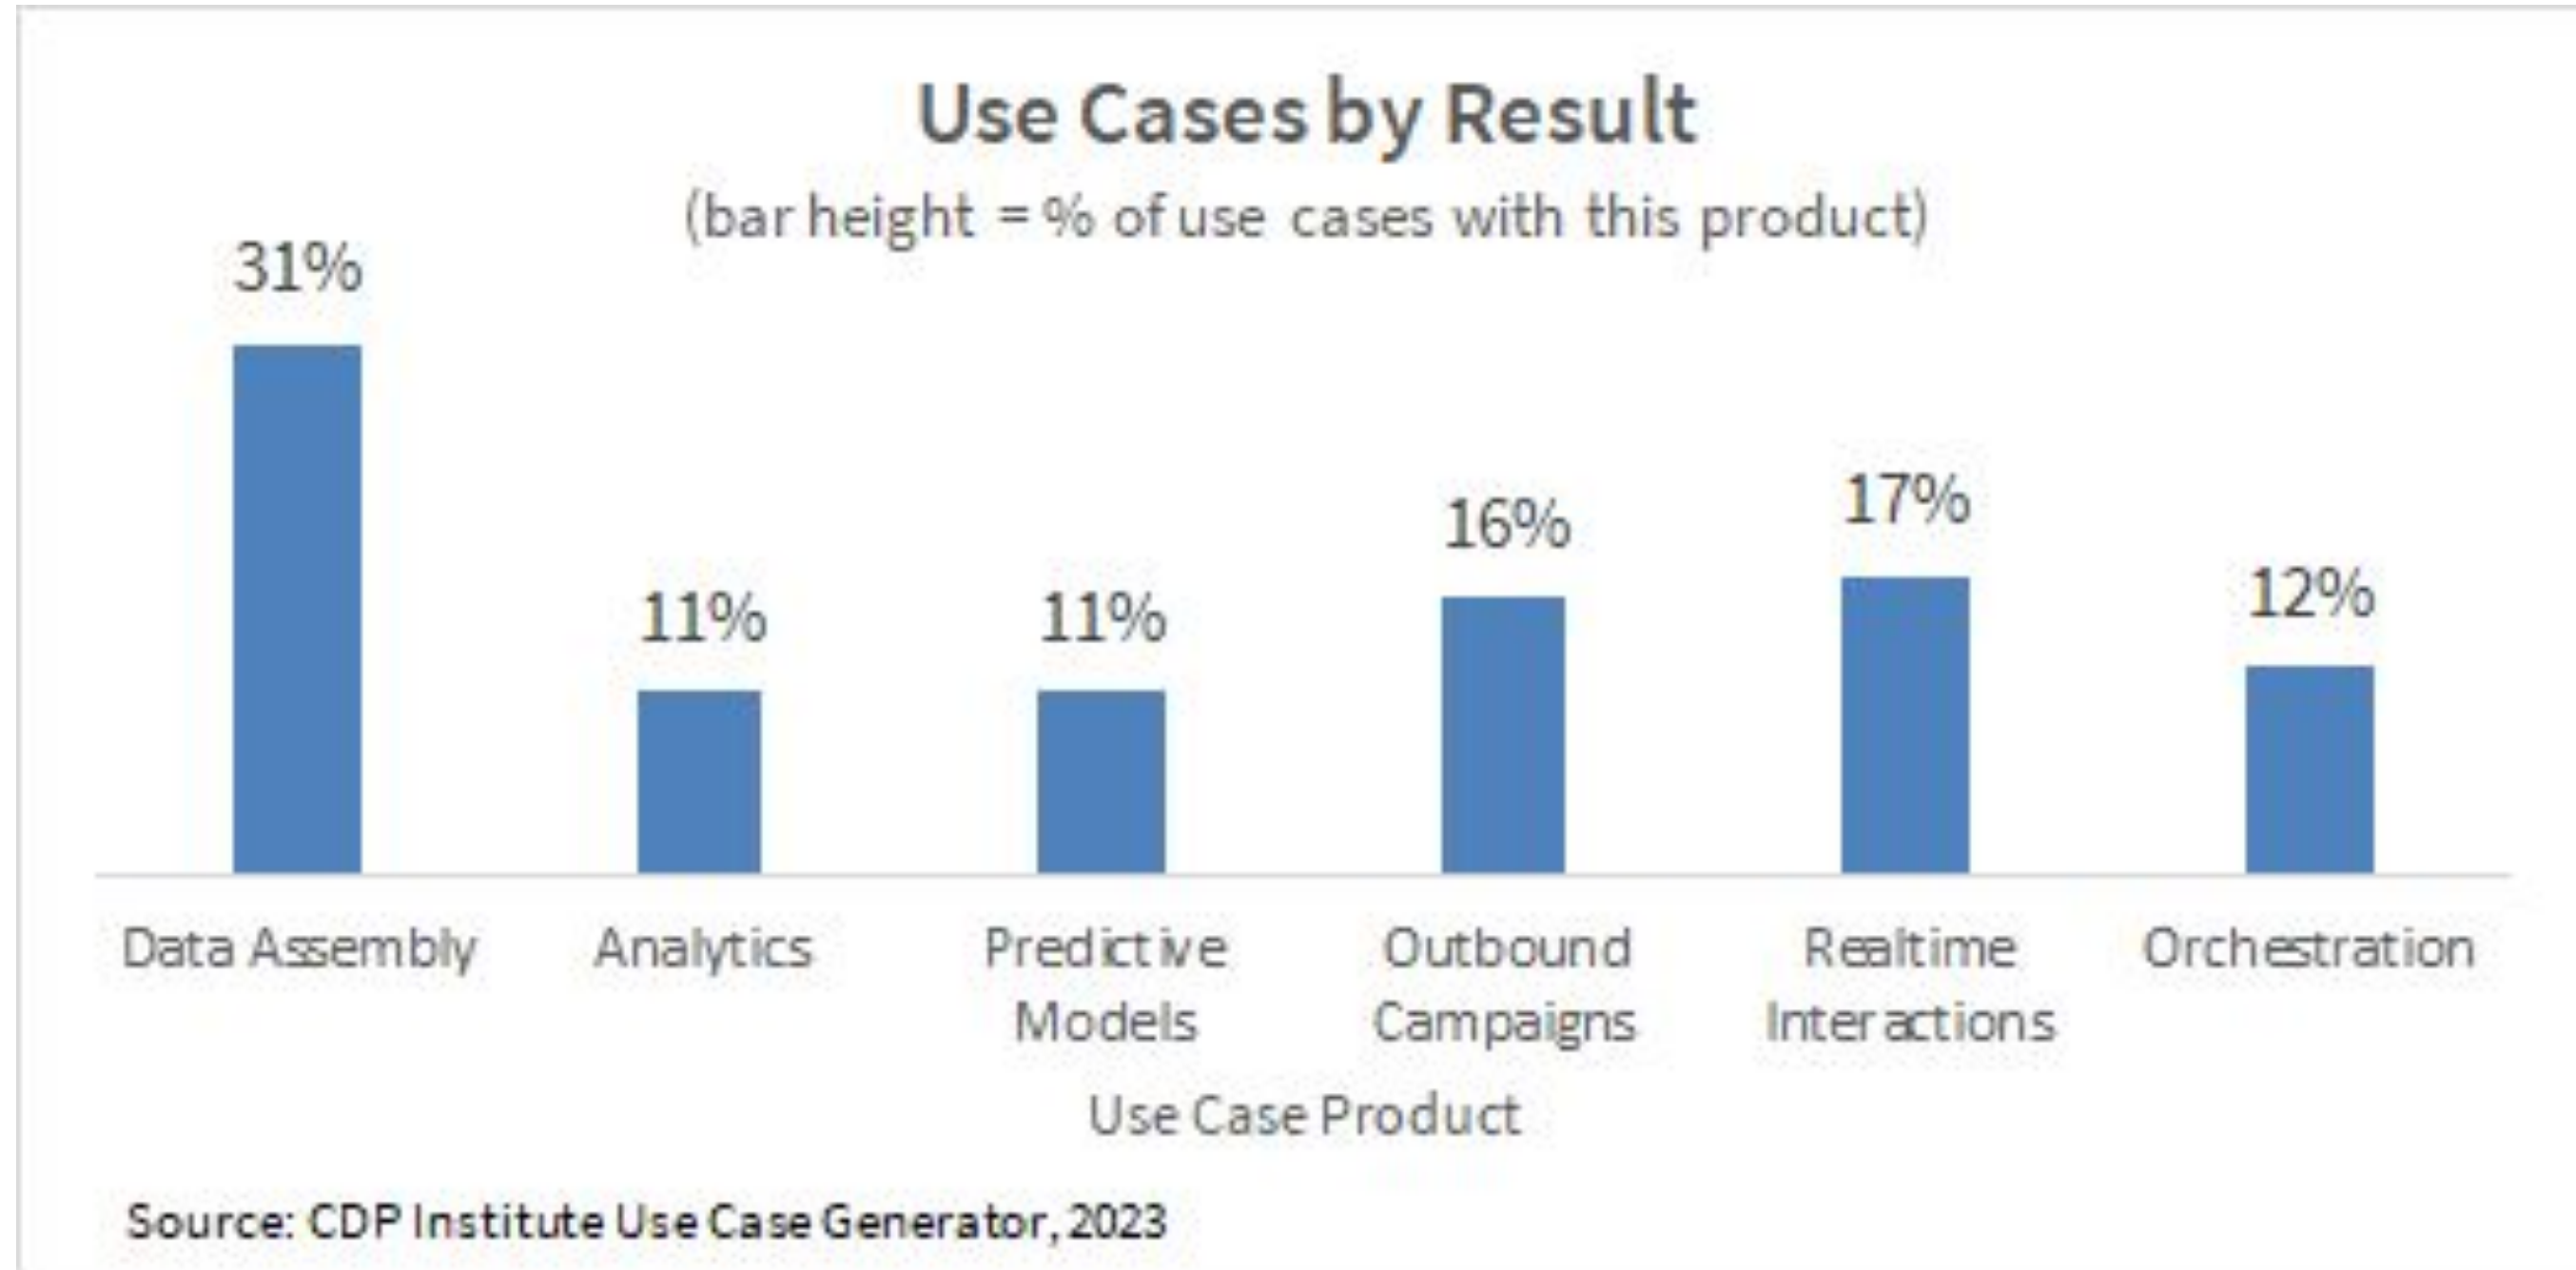

**“87% of buyers wanted to self-serve all or some of the journey, whereas this year, virtually 100% want to self-educate and manage the buying experience on their own.” (TrustRadius)**

# Secrets to Successful Implementations

# Biggest Deployment Problem is Organization, Not Technology

# Initial Use Cases Focus on Data, Later Cases Focus on Value
